

Hobart City Business District Forum

I want to hear your views on the future of Hobart.

How do we keep the city a vibrant place for business?

What can the State Government do to enhance Hobart City as a place for doing business?

What is the Capital City Strategy?

How will the Capital City Strategy assist you?

Location: Meeting Room off HCC car park (enter from Elizabeth St)

Date: Tuesday, 12 July 2011

Time: 5.30pm for 5.45pm start to 6.45pm.

The Liberals' Positive Plans for Tasmania

We have some ideas of our own on how to deal with major issues facing Tasmania, we'd like to share them with you:

- ✓ Downward pressure on power bills by opening up the electricity market to full retail competition.
- ✓ Local benefits test to help small business get more government work.
- ✓ One single state-wide residential planning code making it easier to build a new house.
- ✓ Red tape reduction to allow small business to grow and create more jobs.
- ✓ 13 point forestry plan to protect forestry jobs and up to an extra 150,000 hectares of iconic forest.
- ✓ Five step public sector strategy to rein in public sector spending without sacking teachers, police and nurses.
- ✓ Better financial and budget reporting with quarterly public reports on the budget.
