Subject: PPCA | Tariff R review

Dear Bill,

I hope this finds you well.

I am writing to provide you with an update on the current review of Tariff R. As you may be aware, PPCA received a number of lengthy submissions either on or soon after the consultation deadline, and we are currently working through the matters raised therein.

Consequently, it is unlikely that we will be in a position to implement any new arrangements on and from October 1, as previously envisaged. As such, we can confirm that the new tariff will not be implemented on 1 October as originally foreshadowed. Nonetheless, we remain committed to finalising the matter swiftly, and providing you with details of the new tariff scheme as soon as possible. We anticipate that we will be in a position to advise of our updated timeline by the end of next week (including, relevantly, the revised implementation date), at which time we will also post that information on our website.

Best regards,

Lynne Small || Manager - Finance, Operations & Administration
