

Tasmanian Hospitality Association Corporate Discounts

Since 1839 the Australian Hotels Association (AHA) and Restaurant & Catering Association (RCA) of Tasmania has been working to protect the interests of those in the hospitality and tourism industry. In November 2009 these two bodies merged to become the Tasmanian Hospitality Association (THA). The THA provides its members with a comprehensive package which includes Industry Representation & Lobbying, Industrial Relations and Human Resources advice, Information and News, Marketing, Training and access to special events.

The THA has over fifty industry specific Corporate Suppliers who offer incentives to association members. Businesses can recover their membership costs by dealing direct with recommended suppliers who supply to members at discounted rates.

The following pages outline discounts available to THA members and those corporate partners who support our association and its members in other ways.
